## INTUITIVE DREAMWORK

**A WORKSHOP with Dr. Marcia Emery**

**April 2 - 4 (Monday, Tuesday, and Wednesday. 9:00 - 5:00)**

**FEE: \$225.00 + WORKBOOK**

Dreams aren't about sleeping but waking up to challenges and potential opportunities. They alert us to what we need to know and what actions we need to take. Using intuition helps capture the wisdom embedded in the dream. The noise of the day silences the intuitive voice that gets a chance to speak through a dream providing a warning, guidance or creative breakthrough.

- In this workshop you will:
- Find out how to awaken your intuition and use it to unravel the puzzling dream symbol that is custom designed for you;
- Learn about dreams that come true called precognitive dreams which can foreshadow upcoming events;
- Learn Dr. Emery's DreamShift technique to retrieve rapid insights and clarify the meaning of the dream; and
- Discover the Image activation technique of Robert Hoss that explores the meaning of color in dreams.

Marcia Emery, Ph.D. is a psychologist, intuitive consultant, professor and author of many books including PowerHunch! and The Intuitive Healer. Currently, she is the dream expert on America Now -- a weekly one hour television news magazine viewed on CBS, NBC, ABC, and Fox. She has served as a board member of the International Association for the Study of Dreams (IASD) and appeared as an expert on the Dream Decoders TV series.
